

# **Stone Brook Community**

## **Mailbox Specifications**

Uniformity of the individual mailboxes is an important element of the community's appeal. Repairing damage caused by weed trimmers, vandalism, collisions or wood decay is the responsibility of the homeowner.

If you are needing repairs such as a rotted post, our preferred vendor is Jay Williams. He can be contacted at 513-295-9265 or email: [shermanmailboxes@gmail.com](mailto:shermanmailboxes@gmail.com). He is familiar with our specifications, style and materials. If you plan to do the repairs yourself, any parts you purchase **MUST** be exactly like the original item.

The information below provides a list of the pieces for the Post, Mailbox, Numerals and Paint as well as US Postal Service requirements for installing your mailbox. Most of these materials are available at Lowes, Home Depot or Menards.

Stone Brook is a mature community so the placement of the mailbox should remain consistent with the prior installation.

If you have any questions please feel free to contact any member of the HOA Board.

Is Discontinued By Manufacturer	No
Size	4 Inch
Color	Black
Style	#2
Finish	Black
Material	Aluminum

Post paint. Behr House and Fence Solid Stain, color White

# Placement Installation Requirements Mailbox Post

- There must be 41 to 45 inches of height from the street up to the bottom of your mailbox door. Average in Stone Brook is 38 to 42 inches
- Your mailbox door must be 6 to 8 inches from the curb when closed.
- Average distance from the front of the post to the curb is about 28 inches.
- Post should be no deeper than 24" below the surface. Concrete is optional and not recommended.
- **BEST ADVICE - Stone Brook is an established community so the best advice is to use the existing post location for a new post. It is NOT recommended that you change the location of your post.**
